

Christian Adult Participants Needed

ENGAGING CHURCH TEAMS TO SUPPORT YOUTH AGING OUT OF CARE

Two years. Have you been a member of your church for at least 2 years or a church clergy?

Three hours. Are you willing to donate 3 hours of your time?

28 or older. Are you 28 or older?

If you answered **YES** to these questions, you may be eligible to participate in a research study.

**The study gathers your opinions in a brainstorming event.
7–10 people from three churches will participate.**

Participants will be voicing their opinions in a focus group format. I will audio record the focus group sessions. After that, I will collect the anonymous individual ideation forms in a slotted box. An individual ideation session of about 30 minutes will follow with a third and final facilitated focus group session. In total, I expect the event to take three hours or less.

Names and other identifying information will be requested as part of this study for the focus group, but participant identities will not be disclosed. Participation for the individual ideation form will be completely anonymous, and no personal, identifying information will be collected.

Consent information will be handed to you in person prior to taking part in any study activities. The consent document contains additional information about my research. You do not need to sign the consent document unless they would prefer to do so. After you have read the consent form, I will ask you place it in a slotted box to indicate that they have read the consent information and would like to take part in the study.

Participants will receive a \$25 Visa gift card.
